

# VEERALAKSHMI S

## SOFTWARE DEVELOPER | FULL-STACK DEVELOPMENT

📍 Bengaluru    ☎ 9360101616    ✉ [veeralakshmi0403@gmail.com](mailto:veeralakshmi0403@gmail.com)    🔗 [linkedin.com/in/veeralakshmi0403](https://www.linkedin.com/in/veeralakshmi0403)    💡 [github.com/veeralakshmi-0403](https://github.com/veeralakshmi-0403)    📁 [portfolio-veeralakshmi](#)

### SUMMARY

I am a skilled Software Developer with expertise in full-stack development, Skilled in creating scalable, high-performance solutions with a focus on seamless user experience and efficient deployment. A proactive problem-solver and team player, I deliver impactful results in fast-paced settings.

### SKILLS

**Full-Stack Development :** MERN (MongoDB, Express.js, React, Node.js).

**Programming Languages :** Javascript, python, typescript, C.

**Cloud Technologies :** AWS (Amazon Web Services)

**CSS Frameworks:** Bootstrap, Material UI, Tailwind

**UI/UX :** Figma for design and prototyping, Office365, Canva, Adobe Photoshop.

**AI & Development Tools:** GitHub Copilot, AI-Assisted Development

### WORK EXPERIENCE

#### Software Developer , Sify Technologies Limited

July 2023

- Engineered cloud-hosted full-stack applications using MERN and AWS with focus on scalability and responsiveness.
- Built secure RESTful APIs and microservices for seamless integration between application components.
- Implemented unit and integration testing to improve application reliability and code quality.
- Translated Figma designs into responsive and reusable React.js interfaces while maintaining UI/UX consistency.
- Integrated customized CI/CD workflows to support consistent and streamlined application deployments.

#### Research Intern , AICL

7th June 2021 - 28th June 2021

- Developed machine learning models, including Convolutional Neural Networks (CNNs), to accurately classify facial expressions into basic emotions, utilizing extensive data collection and preprocessing for optimal model performance.

#### Cyber Security virtual intern , Cisco

1st June 2021 - 30th July 2021

- Gained hands-on experience in networking, cybersecurity, cisco packet tracer and cloud technologies.

### PROJECTS

#### Enterprise ePMS, A Management Application

- Developed a project management solution for tracking revenues, approvals, and project workflows with role-based access control. Optimized performance using caching in Redux and typescript for efficient data handling.

#### Sify DocBox – File Management System

- Developed the front-end and UI for DocBox, a file management system for both admins and end-users. Designed an intuitive interface for seamless file organization, access, and management.

#### SkilFlo – Theming & UI Development

- Designed and implemented theming for the entire SkilFlo app, supporting both AI-driven and manual color palette customization. Developed the app's UI for a seamless and visually cohesive user experience.

#### Sify AppStore – Digital Application Marketplace

- Developed the front-end for Sify AppStore, a platform similar to the Play Store, enabling seamless app discovery, downloads, and management with an intuitive user interface.

### EDUCATION

#### Computer Science Engineer

2019 - 2023

Bachelor of Engineering (BE) in Computer Science and Engineering (CSE) , Sri Sairam Institute of technology

### CERTIFICATIONS

- AWS Certified Developer – Associate
- Workato Automation Pro I , II, III
- Cyber security essentials
- Pega Certified- System Architect

### PUBLICATIONS

- [Student Tracking System in School Bus using Face Recognition and IoT](#)
