SUMMARY

I am a skilled Software Developer with expertise in full-stack development, Skilled in creating scalable, high-performance solutions with a focus on seamless user experience and efficient deployment. A proactive problem-solver and team player, I deliver impactful results in fast-paced settings.

WORK EXPERIENCE

Software Developer , Sify Technologies Limited

July 2023 - April 2025

- Developed high-performing cloud-hosted applications using the MERN stack and AWS, creating secure RESTful APIs and microservices to ensure seamless integration and responsiveness across platforms.
- Implemented unit and integration testing practices to ensure code quality and functionality.
- Ensure product consistency with UI/UX design language using Figma, integrated with a customized CI/CD pipeline.

Research Intern , AICL

7th June 2021 - 28th June 2021

- Developed machine learning models, including Convolutional Neural Networks (CNNs), to accurately classify facial expressions into basic emotions, utilizing extensive data collection and preprocessing for optimal model performance.

Cyber Security virtual intern , Cisco

1st June 2021 - 30th July 2021

- Gained hands-on experience in networking, cybersecurity, cisco packet tracer and cloud technologies.

EDUCATION

Computer Science Engineer

2019 - 2023

Bachelor of Engineering (BE) in Computer Science and Engineering (CSE) , Sri Sairam Institute of technology

SKILLS

Full-Stack Development : MERN (MongoDB, Express.js, React, Node.js).

CSS Frameworks: Bootstrap, Material UI, Tailwind

UI/UX : Figma for design and prototyping, Office365, Canva, Adobe Photoshop.

Cloud Technologies : AWS (Amazon Web Services)

Programming Languages : Javascript, python, typescript, C.

PROJECTS

Enterprise ePMS, A Management Application

- Developed a project management solution for tracking revenues, approvals, and project workflows with role-based access control. Optimized performance using caching in Redux and typescript for efficient data handling.

Sify DocBox – File Management System

- Developed the front-end and UI for DocBox, a file management system for both admins and end-users. Designed an intuitive interface for seamless file organization, access, and management.

SkilFlo – Theming & UI Development

- Designed and implemented theming for the entire SkilFlo app, supporting both AI-driven and manual color palette customization. Developed the app's UI for a seamless and visually cohesive user experience.

Sify AppStore – Digital Application Marketplace

- Developed the front-end for Sify AppStore, a platform similar to the Play Store, enabling seamless app discovery, downloads, and management with an intuitive user interface.

CERTIFICATIONS

- AWS Certified Developer – Associate
- Cyber security essentials
- Workato Automation Pro I , II, III
- Pega Certified- System Architect
